Foxes: Facts & Pictures - Live Science Most foxes are around the same size as medium-sized dogs. Since foxes are smaller mammals, they are also quite light. They can weigh as little as 1.5 lbs. (680 grams) and as much as 24 lbs. (11 kg. The fox website - Official Site Welcome to the fox website, the one place for information on all aspects of red fox ecology, behaviour, management and human conflict. Red Fox | National Geographic Red foxes live around the world in many diverse habitats including forests, grasslands, mountains, and deserts. They also adapt well to human environments such as farms, suburban areas, and even.

Fox - Wikipedia Foxes are small-to-medium-sized, omnivorous mammals belonging to several genera of the family Canidae. Foxes have a flattened skull, upright triangular ears, a pointed, slightly upturned snout, and a long bushy tail (or brush). Twelve species belong to the monophyletic "true foxes" group of genus *Vulpes*. Red and Gray fox damage control and management The red fox (*Vulpes vulpes*) is the most common of the foxes native to North America. Most depredation problems are associated with red foxes, although in some areas gray foxes (*Urocyon cinereoargenteus*) can cause problems.
